Battle Barks

These battle barks are featured in Medimon's current Demo and are played during specific conditions in Medimon Battles.

Quest Summary: Brad plans to leave town to look for his mom's medicine, only to be stopped by the Tasters Gang blocking the Fascia Bridge. If Brad wants to leave, he must find their lair and pass the so-called "Taste Trials" to get an audience with their leader, Don Sweets. Only then can his journey around Medicorum truly begin.

Tasters Gang: Enemies for Level 1 based on the 5 senses. They are a power-hungry group in Arva Town, and are infamous amongst the locals – not only buying out local businesses, but also diminishing the character of the town with the integration of their rapidly growing fast-food chain, FAT.

- **Salty Sam**: Salty chef with a fiery passion for salty food and perfectionist mindset. Tends to swear.
- **Sour Sally**: White Northern University dropout student who is constantly complaining and sour about her situation.
- **Savory Steve**: Honest explorer and nature enthusiast, loves to make food from foraged ingredients in the wild.
- **Bitter Bill**: A bitter miner who would rather return to the caves than under the sunny skies of Arva Town. Tends to be sarcastic and harsh at times.
- **Don Sweets**: Frivolous and "Sweet" leader of the Tasters Gang, masking a power-hungry business mindset with a sweet personality.

Tone: Priority on puns and comedy, leaning into tastes as personality
