Petram Pass – Level 4

Petram Pass is the rocky mountain pass that leads up to a plateau where Saltrum City sits. Most who make it through the mountains are either pilgrims heading up to Airy Abbey or sightseers visiting Cruente Lodge and the renowned, high-end Windy Vineyard.

Windy Vineyards

An upscale vineyard where Atmoculturists harvest air by growing grapes, working with and nurturing Lung-family Medimon (especially the Alveoli), and maintaining the complex network of pipes.

- Character(s): Colt, Devonte

The Windy Vineyards serves 2 purposes:

- Harvests air to oxygenate the river – This helps maintain the health of Cruente Park
- Tourist Attraction – For tourists interested in novelties and luxury, many come to Windy Vineyards to visit Windy's Drafthouse, which brings in more money and people to Petram Pass

The vineyard has 3 notable terraces:

- Infinity Terrace
- Harmony Terrace
- Shallow Terrace

Type(s) of Medimon found here:

- Lung-family Medimon

Concept: The Windy Vineyards being to the north of Cruente Park represents the lungs' role in the circulatory system, in which deoxygenated blood (blue water from the blue pipes) comes into the lungs, the lungs add oxygen and removes carbon dioxide (Windy Vineyard harvests the air) and returns the oxygenated blood (red water) back to the heart (Cruente Park).

The 3 different terraces of the vineyard represent the different Ventilation/Perfusion (V/Q) ratios. The Infinity Terrace name is in reference to having a high V/Q, which is known as Dead Space (wasted ventilation). The Harmony Terrace name is in reference to having a healthy V/Q, otherwise known as Balance. And lastly, Shallow Terrace is in reference to having a low V/Q, which is known as Shunt (wasted perfusion).

Windy's Drafthouse

Sir Alveolus Grapesworth III is the current owner of the Windy's Drafthouse. Tourists can come inside the upscale drafthouse to sample the finest air harvested from Windy Vineyards with

various different scents. It has become a major tourist attraction in Petram Pass, though it is a little on the pricey side.

- Character(s): Sir Alveolus Grapesworth III

They are mostly known for their “aromatic flight,” in which people can sample a small collection of different aromas. (A “aromatic flight” is a play on a tasting flight at a winery) Some of their famous scents include:

- Alveoli Noir – A bold grape scent reminiscent of the grapes growing in the vineyard, with rich earthy notes. The air embodies a deep purple color that reflects the thin skin of the Alveoli Medimon. (Reference: Play on Pinot Noir and referencing the Alveoli Medimon found in the area.)
- Roseling – Known for its signature sweetness, it uses small roses for a dainty, floral note that supposedly inspires love and confidence. The air embodies a rosy pink color reminiscent of the faint dusting of blush on one’s cheeks. (Reference: Play on Riesling)
- Bronchi Blanc – The grapes for this scent are specially harvested with the help of the Bronchial Tree Medimon and is why this scent is named after it. This scent has a fuller-bodied oxygen flavor compared to the Alveoli Noir, with a crispness that comes from the citrus notes of lemon. (Reference: Pinot Blanc)
- Petram Blend – One of the Windy’s Drafthouses most famous scents, many tourists claim that its distinct profile perfectly embodies the aroma of Petram Pass and the mountains. It has a bold oxygen flavor with subtle notes of nitrogen.
- Cloudy Night – Named for its use of the cloudytufts that grow up in the mountains of Petram Pass, there is the sharp, earthy notes of petrichor with nitrogen right before the first drop of rain. The air itself is as cloudy as the clouds in the sky.
